The Appeal Brief filed on 09 January 2004 is defective for failure to comply with one or more provisions of 37 CFR 1.192(c). See MPEP § 1206.

To avoid dismissal of the appeal, applicant must file IN TRIPLICATE a complete new brief in compliance with 37 CFR 1.192(c) within the longest of any of the following three **TIME PERIODS**: (1) **ONE MONTH or THIRTY DAYS** from the mailing date of this Notification, whichever is longer; (2) **TWO MONTHS** from the date of the notice of appeal; or (3) within the period for reply to the action from which this appeal was taken. **EXTENSIONS OF THESE TIME PERIODS MAY BE GRANTED UNDER 37 CFR 1.136.**

1. ☐ The brief does not contain the items required under 37 CFR 1.192(c), or the items are not under the proper heading or in the proper order.
2. ☐ The brief does not contain a statement of the status of all claims, pending or cancelled, or does not identify the appealed claims (37 CFR 1.192(c)(3)).
3. ☐ At least one amendment has been filed subsequent to the final rejection, and the brief does not contain a statement of the status of each such amendment (37 CFR 1.192(c)(4)).
4. ☐ The brief does not contain a concise explanation of the claimed invention, referring to the specification by page and line number and to the drawing, if any, by reference characters (37 CFR 1.192(c)(5)).
5. ☒ The brief does not contain a concise statement of the issues presented for review (37 CFR 1.192(c)(6)).
6. ☐ A single ground of rejection has been applied to two or more claims in this application, and

Continuation of 9. Other (including any explanation in support of the above items): 1) The status of amendments is incorrect as only amendments after final need be identified in this section. In the present case, there are no such amendments; therefore, nothing should be identified.

2) The issues presented are incorrect as there should only be two issues in the case. Issue #1 and #3 are correct as they identify the rejections present. Issues #2 and #4 are merely arguments relating to Issues #1 and #3 and are just a more specific restatement of such and thus are not separate issues at hand, just restatements of previously identified issues.

3) The grouping of the claims is also incorrect as there are multiple claims shared among the groups. The grouping should match the issues presented and thus reflect the grouping of the rejections with each claim belonging to one group. There should be two groups wherein Group 1 would include claims 2-4, 6-14, 16-20, 22-30, 32-38 and 40-48 and Group 2 would include claims 5, 15, 21, 31 and 39. If so desired by the Applicant, claims within the group can then be recited to not stand or fall together. If the Applicant desires to make this recitation, each of these claims must be argued as separately patentable in the argument section.
